

Our Vision

Our vision is to create a sustainable network of resources to support the improvement of the quality of life within the communities we serve. We believe connections between local and regional businesses, organizations, benefactors, and donors can mitigate the gaps existing in access, treatment, education, and prevention. We value:

- CONNECTION
- EDUCATION
- ENGAGEMENT
- PEOPLE

About Our Organization

TWF is a non-profit community-based organization formed by employees of The Chautauqua Center (TCC) working to have an impact on the effects of social determinants to health facing our communities in Western New York. Social determinants to health are the conditions in the environments where people are born, live, learn, work, play, worship, and age that affect a wide range of health, functioning, and quality of life outcomes.
